THE RACES.

Great Crowds Expected to Witness the Sport this Week.

The races this week bid fair to be a great success. Already there are many strangers in the city attracted by the coming sport and every successive train largely increases the list.

With good weather and good management prevail and the racing be upon true sporting principles there is no doubt.

The name of the president of the association is a sufficient proof that all that can be done by the association to this end, will be done to the letter.

The whole management is a guarantee to the public that the forthcoming races will be conducted as they should be for the pleasure of a patronizing and appreciative public.

The appearance of the famous horses named in the entries, such as Richmond, Fuller, Sleepy Joe, and a host of others, ought to bring thousands and thousands of people to see their wonderful performances.

Richmond is one of the phenomenal pacers of the age and has suffered not one defeat in all the great events he has appeared in this season.

Fuller and Westmont have records nearly as good as Richmond and the former has beaten Richmond in more than one heat.

The principal turfman of the Southwest will be here and many sporting men from Eastern cities will be seen among the immense throng which will witness the races if the weather is clear.

A reporter's stand has been erected for the accommodation of the representatives of the press; the grand stand is finished, and everything is in readiness for the races. The judges will be careful selected and no crooked work among jockeys will be allowed.

The races will be the greatest event that has yet occurred in the sporting annals of our city, and we predict, with the assistance of clear skies, great crowds, great performances and much pleasure to all who attend it.

The Keystone.

The merchant who studies the interest of his customers will always figure to the lowest price that they can sell an article. This is the keystone to the success of Randall & Chambers Co. They are constantly coming before the public with some article of real merit, at a fabulously low price, and the public understand when they read their announcement of a certain bargain, they find that identical article at the price named. They display "ad" for this week says: "Ladies' cloth and Langtry cloth, 54 inches wide at \$1 per yard."

WHAT WE WOULD LIKE TO SEE.

Everybody quit winner on the races.

The clerk of the weather.

Everybody's sisters, cousins and aunts at the races.

Faith, hope and charity, especially charity.

The garbage carted off the streets.

A dud.

WHAT WE WOULD LIKE TO KNOW.

That Grau's Opera troupe will play to crowded houses on their return to Fort Worth.

The size of that slipper.

How many people will attend church today.

How long before the street cars will run all night.

Who struck Billy Patterson.

The winners in the races this week.

When that certain young railroad man will be married.

HUNDREDS WRITE they owe their life and present good health to Acker's English Remedy for Consumption, Coughs, Colds, etc. Sold by L. N. Brunswick & Co.

A Lost Boy.

A little 3-year-old was found wandering alone in the streets yesterday afternoon, and was taken in charge by a sympathetic gentleman. After a tiresome search for the little fellow's father the gentleman relinquished his charge to Mr. G. W. Hill, who, as assisted by Mrs. Hill, soon had the tears of joy on his face when he was trying to swallow a savings bank. The young one could not give his name, but his father, Henry Curry, arrived before dark, and took Charley home. It seems that he had been allowed to accompany some older boys to town to see the rope-walk, and had got separated from them. Mr. Hill is a regular orphan asylum in himself. All the best are taken to him, and they all fare well.

News boys not allowed to drum on the train for the Barnes House at Albany, Texas. J. L. Barnes, Proprietor.

The number of ladies and gentlemen who throng the store of H. Tully, the well-known jeweler, are nearly customers. Not a few drop into his store out of mere curiosity, but rarely care to leave without purchasing something after inspecting his stock. Mr. Tully's stock of diamonds, gems of all kinds, and ornaments in gold captivate the taste of all, and the name of the house stamped on the goods are a fit guarantee of their excellence.

Military.

Thirty-two young men have signified their desire to join a militia company to be organized in this city, and a meeting will be held at the city hall to-morrow night for organization. All young men interested in military matters are invited to be present. When the company is fully organized it is the intention to have frequent drills in order to get the various movements down. The company will be organized when it becomes practical to be in the city. There is certainly no reason why Fort Worth should not have as good a company as Houston, if the boys have the military spirit. The community will encourage with its support and foster such an organization.

Last Night's Opera.

Grau's English Opera Company, in addition to a matinee performance of "Olivette" yesterday afternoon, presented a very fair house last night.

The piece was as pleasantly rendered as any former superb singing could be. Miss Besie Grey gave a better performance as complete a presentation as the author could have wished. If the "Mascotte" really possessed the power, as alleged, of bringing fortune and the best of luck to its possessor, Grau is in possession of a real Mascotte in the charming "Besie"; her voice is melodious and as fine an alto as has ever graced our hall, while her stage manners are full of grace.

Miss McHenry sustained her stage lineage and played great power in Farnette, and Miss Bebe Vining as Federie was as fascinating, as sweet and charming as any prince in fairy's realm could possibly be. Rocco, Pippo and Lorenzo fairly divided the honors. Pault's "H" but a half hour's notice assumed the first character and sustained it well. Seaman as a singer fully came up to his high reputation as Pippo, and Brown in make-up and acting was good in Lorenzo. The Grau company have in Miss Besie Grey a star of the first magnitude in the constellation of comic opera, and its brilliant success fairly divided the honors. HO! FOR THE RACES

The coming races in Fort Worth are attracting more than any amount of attention generally bestowed on that enlivening sport.

City will be thronged with visitors, and the only possible drawback to full enjoyment is the lack of hotel accommodations.

Except in the case of a few, no city in Texas can show a better list of attractions than this state, and all who come are assured of having more fun than you can get at home.

We have a beautiful opera house, splendid drives, the best race track in the state, and all who come are assured of having more fun than you can get at home.

We have a word or two to say to visitors: To Fort Worth and miss seeing our handsome store, would be as bad as going to Rome without seeing the Pope.

Besides a handsome store, we have the most attractive line of clothing and gents' furnishing goods in the city. Our prices are low, our goods are of the best material, and our price system is a guarantee that all comers will be well treated.

We present every visitor with a handsome souvenir--something useful and ornamental. We are noted for our fair dealing. Be sure to visit us in town. You can find our place by asking any man or boy you meet.

Lecture on infidelity. Rev. W. C. McCune will deliver a third lecture on infidelity Sunday, 18th inst., in the Methodist college, corner Throckmorton and Seventh streets at 3 o'clock p. m. Subject, Are the Bible Miracles Credible? Thoughtful people, teachers, editors, physicians, lawyers and ministers are respectfully invited.

A few nights ago miscreants entered the new school house in the Second ward, now about completed, and did various acts akin to the work of his satanic majesty. The plasterer's partitions were nailed to the wall, desks were thrown around, some of them were broken, and some of the tools left there ruined. Were the parties known an example would be made of them.
